Release 2024.10 [05/07/2024-]

General Overview & Impact

✋ This release contains changes to the Network AE payments flow, with the introduction of a hosted payment page, to improve the customer experience and flow for those making payments via Network.

🔐 This release also includes further updates to the Security Deposit functionality, whereby security deposits can now be applied to initial owner and tenant accounts.

🔌 A new supply type has been added for "Electricity (Other)".
