Release 2024.7 [07/05/2024]

General Overview & Impact

⏳ We have made some changes to the way we get back data to display on a statement, to try and improve the speed at which statements generate in Mabdeck, and prevent timeout issues.

🔧 As part of the ongoing work to upgrade Mabdeck, there are some more changes in this release which will help towards that. This includes small code changes for standard .csv reports, and for email sending. Although you won't be able to see these changes themselves, be assured that the code is being tweaked and improved in the background, and we hope your front end experience will become a lot smoother as a result of this too.

Fixes

- [ ] Statement Time Out Solutions - PBI/15619

Improvements

- [ ] Remove Times from Tenant/Owner History Models - PBI/15531
- [ ] Upgrade work
  - [ ] Reporting Upgrade Changes - PBI/16375
