

Release 2025.14 [12/11/2025]

General Overview & Impact

New Credit Control

This release has seen a lot of cleanup of the work we have been doing on New Credit Control over the past few releases. This has included including restrictions for the Credit Control Path functionality, as well as making changes to the Credit Control Flags to include a property dropdown for owner flags when an excessive number of flags are present and separating owner and tenant flags on an account. We have also added Procedure options for how Credit Control is handled for tenants moved into multiple properties.

- ☐ CreditControlDebt - Config CC Actions for Multiple Owners - [PBI/21737](#)
- ☐ New Credit Control - Move Auto-Publish Credit Control from Client to Credit Control Setup - [PBI/22014](#)
- ☐ Aged Debt Report - Changes for New Credit Control - [PBI/22249](#)
- ☐ New Credit Control Correspondence Page - Select and Download Features - [PBI/22344](#)
- ☐ New Credit Control - Separate Flag Panels for Owner and Tenant Flags - [PBI/22394](#)
- ☐ AccountDebt & CreditControlDebt Placeholders - [PBI/22478](#)
- ☐ Credit Control Procedure - Restrict Creating the Same Credit Control Path - [PBI/22479](#)
- ☐ New Credit Control - Add Status Filter to Credit Control Page - [PBI/22263](#)
- ☐ New Credit Control - Owner Flag Property Dropdown - [PBI/22346](#)
- ☐ AccountDebt - Combine AccountDebts Created from Statement Charges - [PBI/22469](#)
- ☐ New Credit Control - AccountDebt & CreditControlDebt Email Placeholders - [PBI/22660](#)

SSG Statement Generator

The work in this release has been focussed on improving the overall functionality and performance of the billing runs page. We have added a Show/Hide feature to the individual Billing Runs panels. This allows us to limit the amount of information loaded when accessing the page and, in turn, improve page load times. We have also added an improved search feature, similar to that seen on the account page, which should help users narrow down the bill runs they are searching for.

- ☐ Billing Runs Show/Hide Functionality - [PBI/19547](#)
- ☐ Billing Runs- Search Functionality in Billing Runs - [PBI/19549](#)

Robots

We have made changes to the Mitsubishi Robot to now process reads under the new LIB manufacturer - this will now follow the same process that the Secure manufacturer does, and should remove any issues experienced using the Unknown manufacturer. We have also continued updating the Robots to an Azure Function from the original Hangfire Job.

- ☐ Generic Robot - [PBI/12084](#)
- ☐ Keypad Robot - [PBI/12186](#)
- ☐ Update Mitsubishi robot to assign meter reads with the Secure Manufacturer [LIB] - [PBI/22695](#)

Other

- ☐ View Account - Hubs - Supply Controller Code Improvement - [PBI/22279](#)
- ☐ View Account - Hubs - Hub Information Code Improvement - [PBI/22278](#)
- ☐ Implementing Breadcrumbs Throughout Mabdeck - [PBI/22547](#)
- ☐ Billing Profile Wizard - Navigating Headers - [PBI/22603](#)

Fixes

- ☐ Inactive meter with old data logger serial pulling through on Active Meter Report, showing old serial number instead of the correct one - [Bug/22703](#)
